

Instructions to RStudio

Step 2: Download RStudio (Free version)

RStudio is a prettier and easier to visualize interface that runs R in the background. We will use RStudio exclusively in class.

Download instructions:

- Go to <https://www.posit.co>
- Hover your mouse on the *Products* link on the top menu
- Click on *RStudio IDE*

- Scroll down and click on the *DOWNLOAD RSTUDIO DESKTOP* button

- On the next page, click on the *Download RSTUDIO* button again
- On the next page, scroll down to *All Installers and Tarballs*
- Then click on the download file for your operating system

OS	Download	Size	SHA-256
Windows 10/11	RSTUDIO-2022.12.0-353.EXE ↴	202.77 MB	FD8EA4B4
macOS 11+	RSTUDIO-2022.12.0-353.DMG ↴	365.71 MB	FD4BEBB5

- Save the file where it is accessible to you
- Open the file you downloaded and the follow the installation instructions

From now on, only open RStudio
